# June's AgeTech Picks

From robot pets and billion-dollar bets on healthcare innovation to fresh insight into AI's role in home care - June had no shortage of news that's reshaping the aging ecosystem. We also released three original podcast episodes, covering everything from smarter tech support to burnout prevention tools for caregivers.

Here's what we're diving into:

- $6M for a robot dog

- CVS is all in on health tech

- AI and home care: what's next?

- Responsible AgeTech goes live

- Grant funding deadline approaching

- 3 new podcast episodes you won't want to miss

---
